

Moving **energy** forward

Since 1990

We are CIS GAZ

Founded in 1990, CIS Gaz has become a leading player in Romania's oil and gas industry. We are specialized in engineering and construction of oil & gas transmission pipelines, hydrocarbon processing facilities, oil& gas collection pipelines and their related compression or pumping stations.

Our expertise also extends to natural gas pressure reducing and metering stations, cogeneration and solar power plants.

CIS Gaz has successfully implemented numerous strategic projects in the energy industry in Romania, as well as internationally, establishing a robust global presence and forming exclusive partnerships to offer a comprehensive range of products and services at the highest industry standard.

In 2022, CIS Gaz proudly became a member of IPLOCA, the largest global association in the onshore and offshore pipeline construction industry.

Your experts in pipeline construction

Designing, manufacturing, delivering and installing **Oil & Gas infrastructure and facilities**, as well as all of the **process equipment** used throughout the entire production chain, from well head to end user.

Underground pipelines of all nominal sizes and dimensions. State-of-the-art equipment and machinery. Committed, safety-conscious and highly trained employees.

The equipment pool is completely tailored to the challenge of pipeline construction. State-of-the-art pipe-laying Caterpillar pipelayers and automated welding equipment guarantee quality even in difficult weather conditions.

Providing solutions of every kind, from start to the end

EPCC:

- Upstream pipelines and surface facilities
- Gas transmission and distribution pipelines
- Hydrocarbon processing facilities
- Natural gas pressure reducing and metering stations
- Natural gas compression and treatment stations
- Solar Power Plants
- Gas to Power and Cogeneration plants
- Pipeline Relocation and Rehabilitation

O & M:

- Asset Integrity management for Oil and Gas Industry
- Hot tapping and Plugging
- Pipeline lining and relining
- Pipeline reliability assessment and predictive maintenance
- Mechanical Cleaning and InLine Inspections
- Decoking of the process tubes of fired heaters and boilers
- Coatings with epoxy resins

Projects Portfolio

ROMANIA - MOLDOVA NATURAL GAS INTERCONNECTION

Interconnection pipeline of the natural gas transport systems of Romania and Republic of Moldova 24in 62 km of pipeline.

- **PROJECT LOCATION:**
Ungheni - Chişinău Republic of Moldova
- **CLIENT:** VESTMOLD TRANSGAZ SRL
- **YEAR:** 2019-2020

NATURAL GAS TRANSMISSION PIPELINE ONEȘTI - GHERĂEȘTI - LEȚCANI

28in 165 km gas transport pipeline Gherăești - Onești - Lețcani constructed in order to improve the supply of natural gas to the area as well as to ensure natural gas transmission capacities to the Republic of Moldova.

- **PROJECT LOCATION:**
Gherăești - Onești - Lețcani
- **CLIENT:** VESTMOLD TRANSGAZ SRL
- **YEAR:** 2019-2020

UNDERCROSSING OF DANUBE RIVER WITH HORIZONTAL DIRECTIONAL DRILLING (HDD)

4 underriver crossings, 28in and 20in, for a total length of 5.5 km, replacing the crude oil import pipelines between stations C1 - C2 and C3 - C4, including the crossing of the Danube River and the Borcea branch, by trenchless method.

- **PROJECT LOCATION:**
Danube River, Borcea branch
- **CLIENT:** CONPET SA
- **YEAR:** 2021-2023

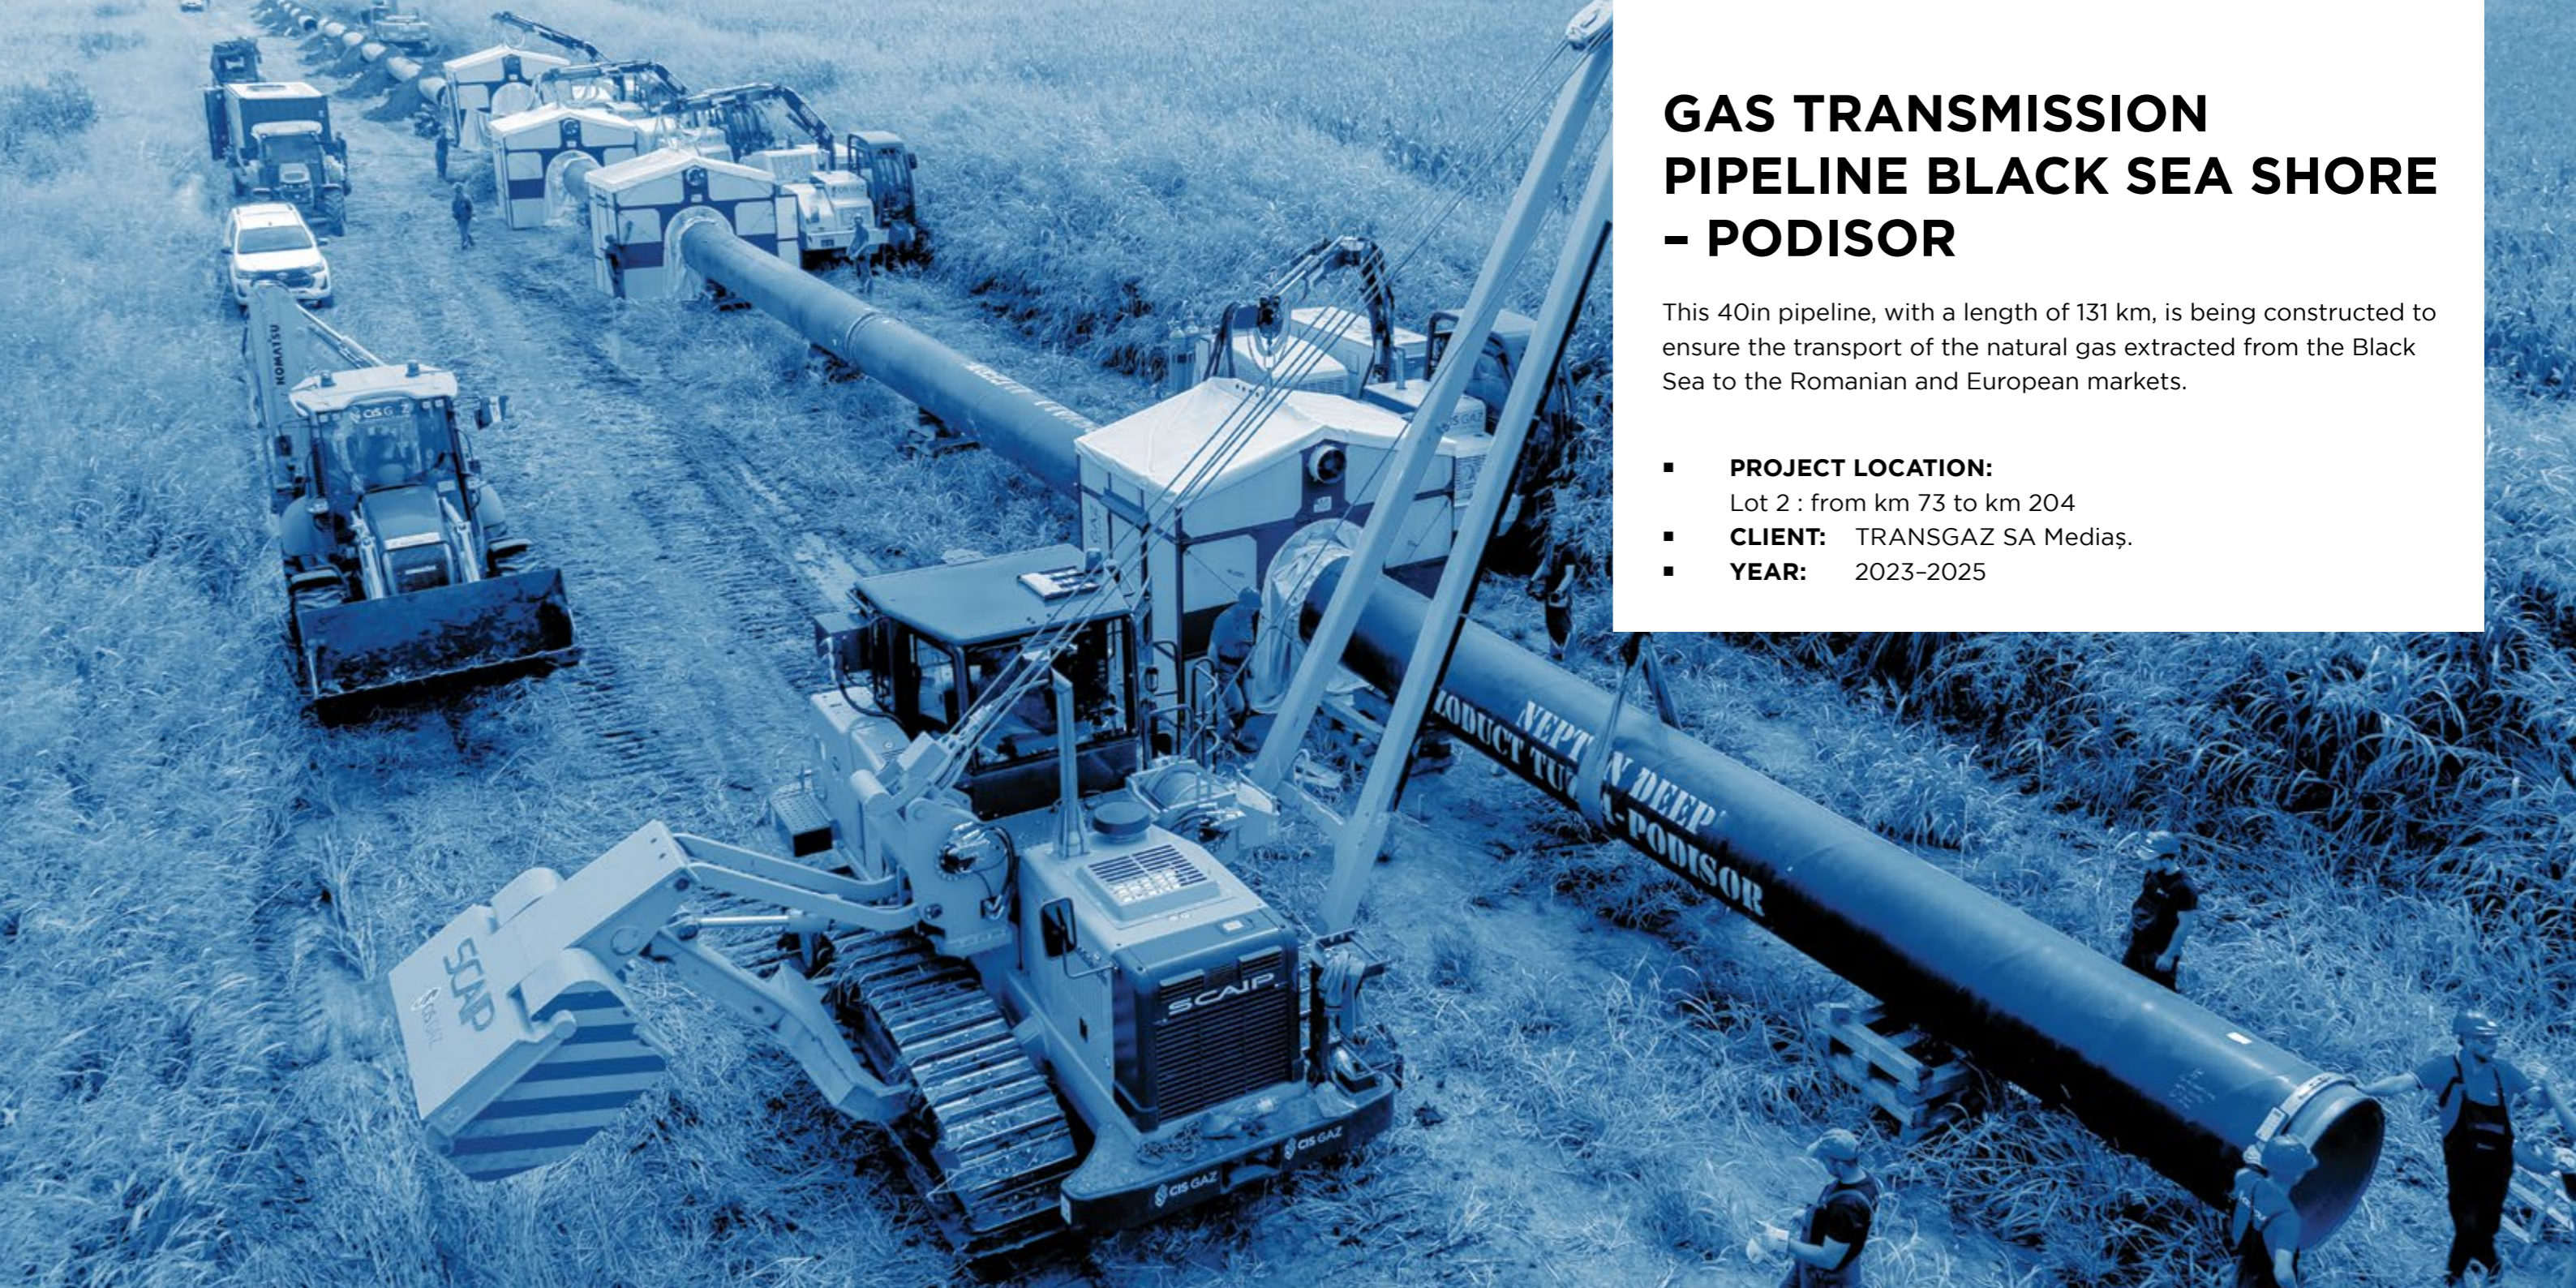

CIS GAZ
HDI
CONPET
DN 700
L=1272 m

GAS TRANSMISSION PIPELINE BLACK SEA SHORE - PODISOR

This 40in pipeline, with a length of 131 km, is being constructed to ensure the transport of the natural gas extracted from the Black Sea to the Romanian and European markets.

- **PROJECT LOCATION:**
Lot 2 : from km 73 to km 204
- **CLIENT:** TRANSGAZ SA Mediaș.
- **YEAR:** 2023-2025

GAS TRANSMISSION PIPELINE FOR CET MINTIA

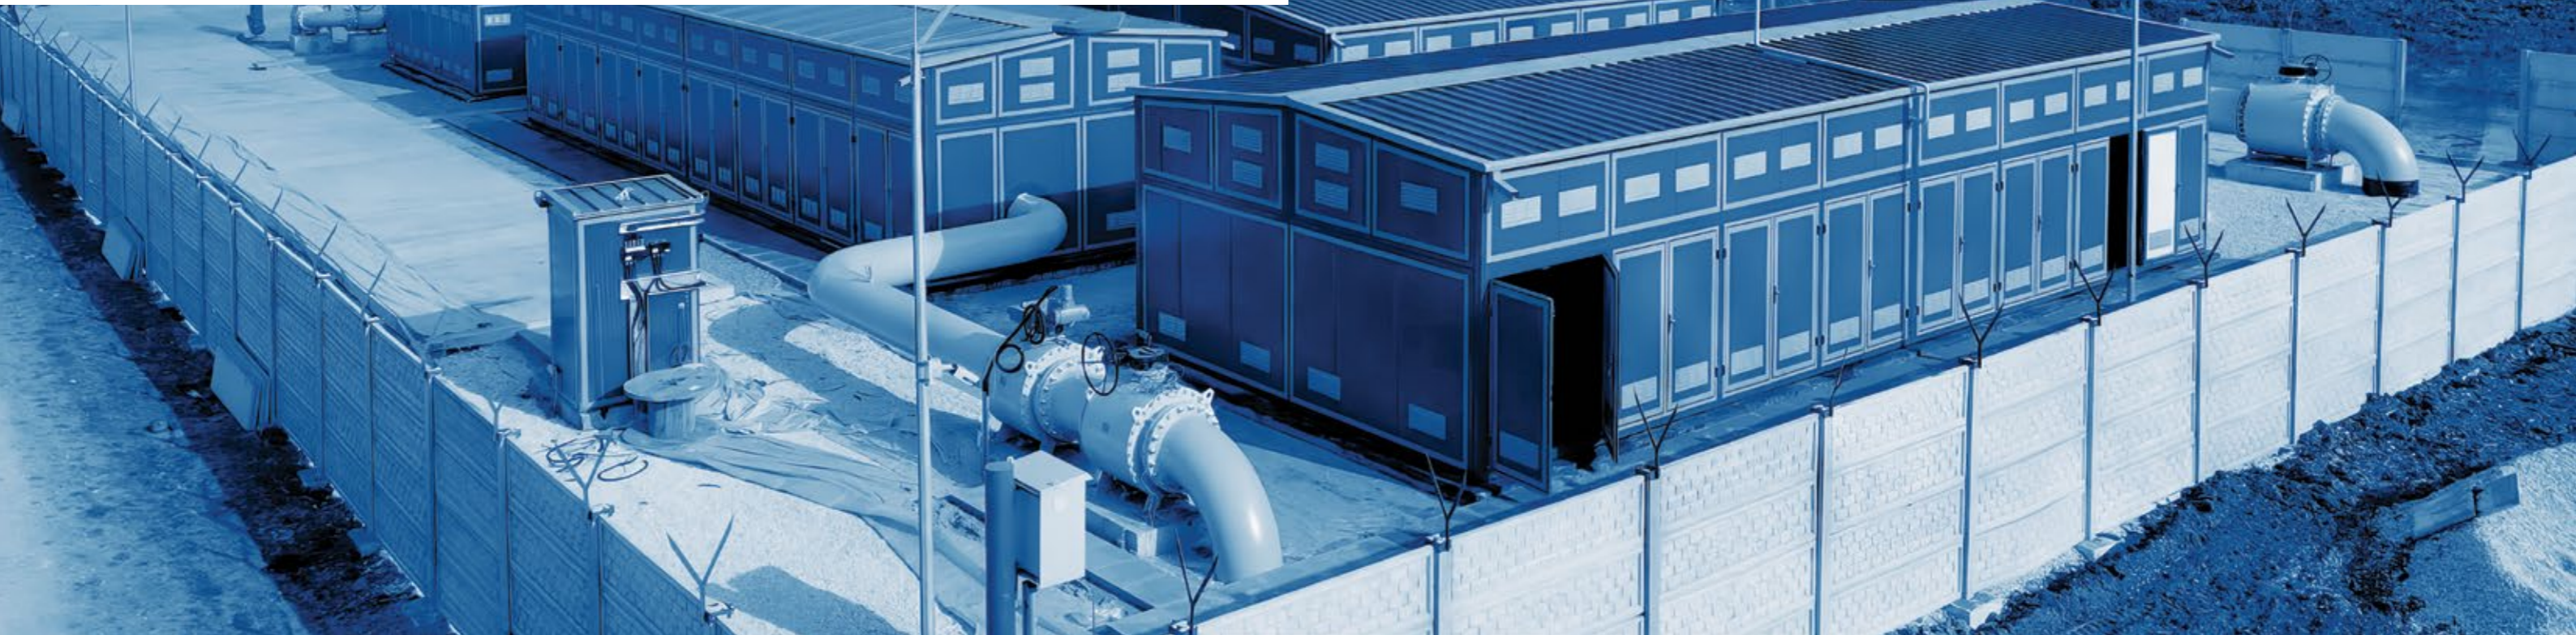

28in pipeline, with a length of 58km, for supplying gas to CET Mintia, including electricity supply, cathodic protection, and optical fiber.

- **PROJECT LOCATION:**
Hateg - Mintia
- **CLIENT:** TRANSGAZ SA Medias
- **YEAR:** 2024-2025

SEMENI, GHIDIGHICI, PETRICANI AND TOHATIN NATURAL GAS PRESSURE REDUCING AND METERING STATIONS

As part of the greater project to build the Romania - Moldova natural gas transmission systems interconnection, Cis Gaz built the 4 biggest pressure reducing and metering stations in the Republic of Moldova.

- **PROJECT LOCATION:**
Republic of Moldova.
- **CLIENT:** VESTMOLD TRANSGAZ SRL
- **YEAR:** 2020-2021

HAYAH KARIMA PROGRAMME NATURAL GAS PRESSURE REDUCING AND METERING STATIONS

As part of the Hayah Karima program of the Egyptian Government, Cis Gaz is leading a consortium to build 13 new gas pressure reducing and metering stations, as well as upgrading 9 existing stations in the Arab Republic of Egypt.

- **PROJECT LOCATION:** Arab Republic of Egypt.
- **CLIENT:** 5 local companies, for which EGAS organized the acquisition procedures
- **YEAR:** 2022-2025
